It is said that the Buddhas enlightened energy is in all aspects of his body, speech and mind. The microfilm mantras being an aspect of the Buddhas speech, are radiating out enlightened energy to all sentient beings 24/7. Hence the importance of prayer wheels which pacify imbalances of the elements, disease, famine, war, and weather disturbances and the like. Just like prayer flags blowing enlightening blessings in the wind.

Our world certainly needs as many awakened, harmonious, wholesome vibrations as it can get right now. With increased unrest in every country due to disease, war and famine, coupled with the effects of global warming, we are seeing more disconnection, suffering, confusion and disharmony than ever before. We need prayer wheels in every country, to eliminate hardships and bring peace and harmony to living beings. Indeed it is one of Kyabje Lama Zopa Rinpoches vast visions to build 100,000 prayer wheels in our world.

Filling the prayer wheel with the blessings of billions of mantras is a top priority project for the benefit of all living beings, especially in this time of thick degeneration with our stable institutions crumbling, we need as much merit and positive power as possible to maintain peace, harmony and protection.

SOME SPIRITUAL BENEFITS OF PRAYER WHEELS INCLUDE:

The person who turns this wheel which possesses OM MANI PADME HUM will be blessed by all the gurus, the deities will grant realizations, those gone to bliss will pay attention to him or her, and the Dharma protectors will eliminate all obstacles. You will accumulate more merits than having recited 100,000 times 10,000,000 mantras by turning the prayer wheel.

For those fortunate beings who reveal this Dharma prayer wheel possessing OM MANI PADME HUM to others, or explain or spread the teachings of this wheel, it is like spreading the teachings of the buddhas.
